Existing Challenges Around Digital Money

Institutions in the digital money ecosystem struggle to stay ahead of rapidly changing environments while ensuring their voices are heard, and face difficulty forming strategic partnerships and collaborating within a fragmented industry.

“

“Despite the growing ecosystem, it's challenging to find the right partners, collaborate effectively, and become part of a community that accelerates growth and innovation in digital assets and digital currencies.”

Head Of Business Development
- Card Issuer

“

“As the regulatory environment for digital assets and digital currencies rapidly evolves, it becomes increasingly challenging to stay ahead of policy changes and effectively engage with legislators. We often struggle to ensure our perspectives are considered in shaping regulations.”

CEO
- Stablecoin Issuer

Our DEA Offering

The DEA empowers members by providing key insights, fostering strategic connections, ensuring their voices are heard, and building collaborative communities to solve the complexities of digital money in Europe

Public Affairs

The **DEA actively represents its community in front of European policy-makers** and regulators, ensuring their voices are heard. We provide strategic insights and advocate for balanced policies that support innovation and include the appropriate level of regulation while safeguarding civil liberties.

Education

The DEA keeps members **informed** and **ahead of industry shifts** by offering publications, conferences (such as the Digital Euro Conference), expert-led roundtables, and courses, as well as **exclusive insights** from discussions with **key stakeholders**. These resources ensure members are well-versed in regulatory developments and best practices, equipping them with the **knowledge to align their strategies and remain competitive**.

Community Building and Collaboration

By building a multidisciplinary network, the DEA helps members easily **connect with the right partners and industry players**, fostering collaboration and knowledge exchange. This network enables companies to **break through the noise**, access **key insights**, and engage with the **right audience** for their **growth**.

Traction & Achievements

Strong growth and successful engagements with policy-makers have expanded our influence and driven meaningful progress in the space.

DEA's Public Affair Key Contributions

- **The Digital Euro Dialogue**

Hosted a high-level policy discussion on digital money at the European Parliament in Brussels.

- **Hearing on digital euro at the German Parliament (Financial Committee)**

Contributed insights on the optimal design of a CBDC.

- **Hearing at the European Economic and Social Committee**

Provided inputs on how to design a digital euro.

Deep Dive: DEA Offering Overview

Exclusive working groups, Brussels sessions, expert roundtables, summer forums, and the Digital Euro Conference, are some of the ways the DEA provides key opportunities for collaboration and insights on digital currencies.

I DEA's Working Groups

Our working group members are central bankers, technology, regulatory, and payments experts who research key topics and publish working group papers.

I DEA Stablecoin & CBDC Committees

Format

Member-exclusive, closed-door expert committees bringing together public and private sector stakeholders for recurring discussions on digital money, payments innovation, regulation and financial market infrastructure developments.

Participants

DEA institutional members, key policy and financial decision-makers such as (central) banks, representatives from politics and financial authorities.

I Digital Euro Conference

The Digital Euro Conference is Europe's premier global digital money event that brings over 1,000 leading experts in Central Bank Digital Currencies (CBDCs), Stablecoins, and Tokenized Commercial Bank Money together. It serves as a key platform for networking, knowledge-sharing, and shaping the global digital currency landscape.

Deep Dive: Policy Sessions

DEA helps members stay close to Europe's digital money policy agenda through Brussels dialogues and member-only briefs turning complex developments into strategic insight.

I Brussels Policy Dialogues

Our Brussels Policy Dialogues provide members with direct exposure to Europe's digital money policy conversation. Hosted in Brussels with policymakers, public-sector representatives, industry experts, and DEA members, these sessions create space for trusted exchange on the digital euro, stablecoins, payments innovation, regulation, and Europe's digital monetary sovereignty.

I DEA Policy Briefs

DEA's member-only policy briefs translate key digital money, payments, and regulatory developments into concise strategic analysis. They help members quickly understand what changed, why it matters, and what to watch next across the digital euro, stablecoins, tokenization, and financial market infrastructure.

Our Members

A dynamic mix of central banks partners, leading fintech companies, financial institutions, and renowned innovators.
